#### University Count according to Country

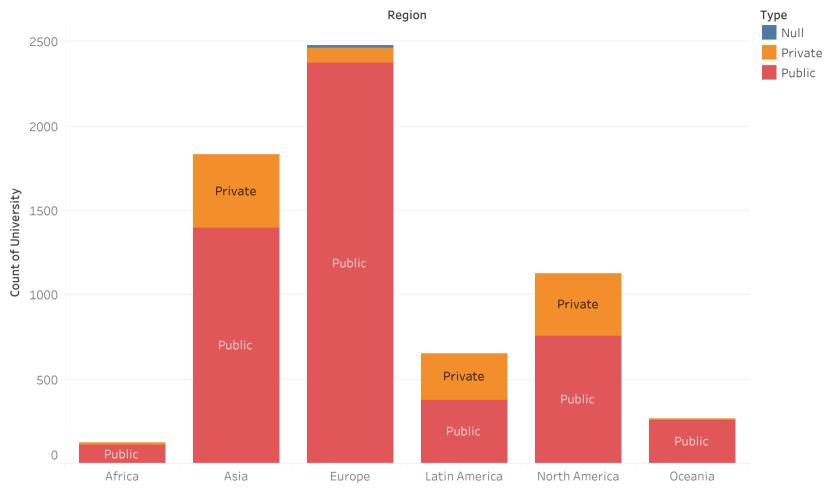

Map based on Longitude (generated) and Latitude (generated). Color shows details about Country. Size shows count of University. The marks are labeled by Country. Details are shown for Country.

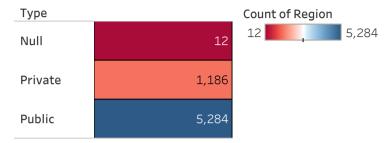

Count of University

# University Count by Continents

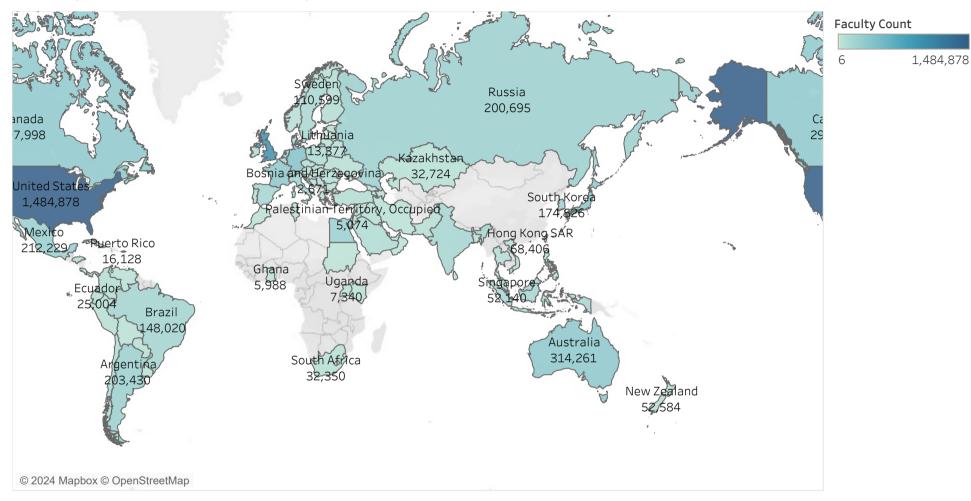

Count of University for each Region. Color shows details about Type. The marks are labeled by Type. The data is filtered on Action (Country), which keeps 97 members.

# Count of Type of University

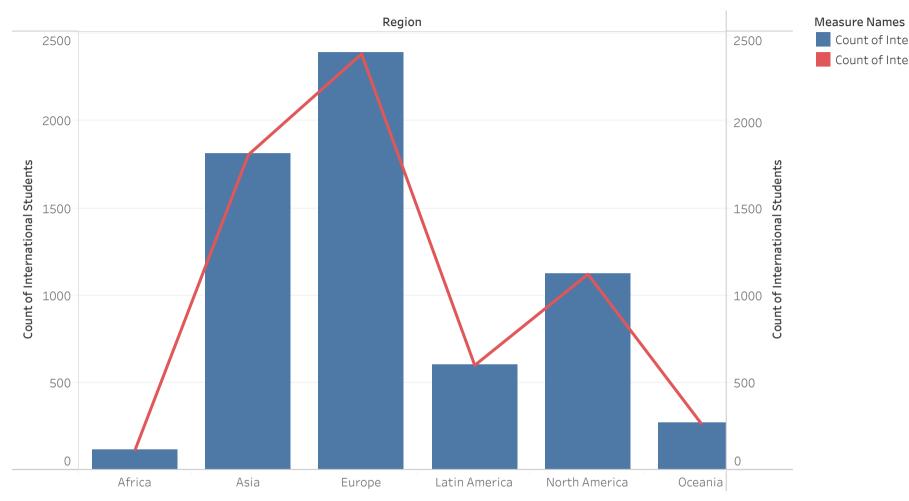

Count of Region broken down by Type. Color shows count of Region. The marks are labeled by count of Region. The data is filtered on Action (Country), which keeps 97 members.

# Faculty Count Based on Country

Map based on Longitude (generated) and Latitude (generated). Color shows sum of Faculty Count. The marks are labeled by Country and sum of Faculty Count. Details are shown for Country.

#### Count of International Students

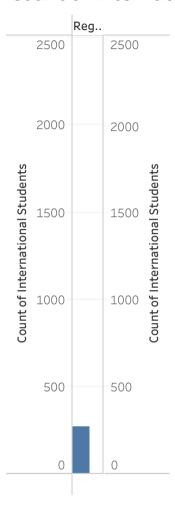

Count of International Students

Count of International Students (2)

The trends of count of International Students and count of International Students for Region. Color shows details about count of International Students and count of International Students. The data is filtered on Action (Country), which keeps 97 members.

#### Count of International Students

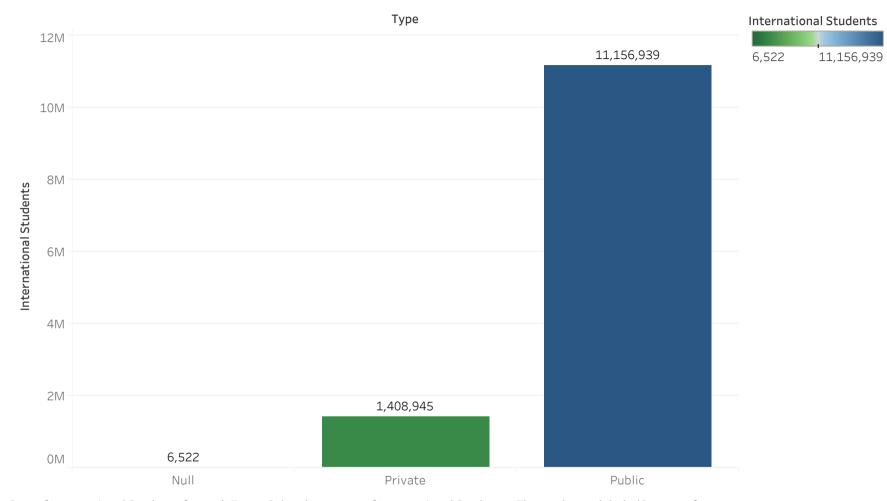

The trends of count of International Students and count of International Students for Region. Color shows details about count of International Students and count of International Students. The data is filtered on Action (Country), which keeps 97 members.

#### Measure Names

Count of International Students

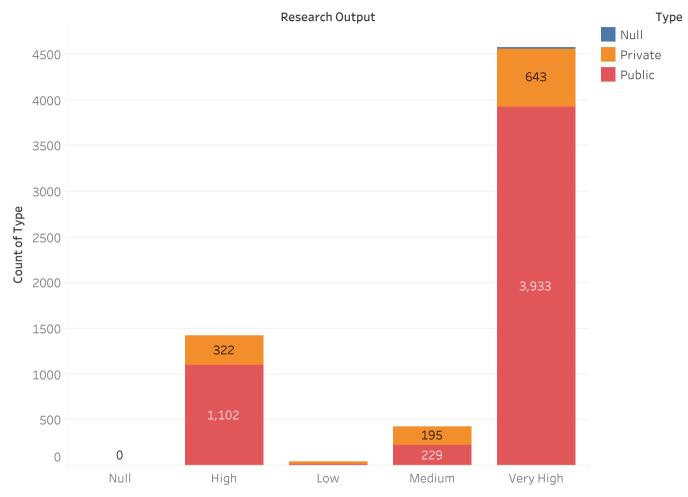

Count of International Students (2)

# Selection of University

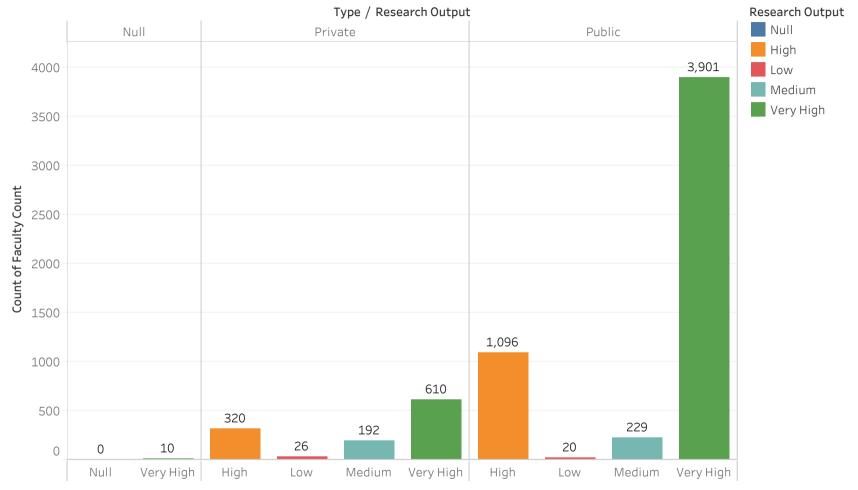

Sum of International Students for each Type. Color shows sum of International Students. The marks are labeled by sum of International Students. The data is filtered on Action (Country), which keeps 97 members.

# Research Output of University

 ${\tt Count\ of\ Type\ for\ each\ Research\ Output.\ Color\ shows\ details\ about\ Type.}$ 

# Research Output vs Faculty Count

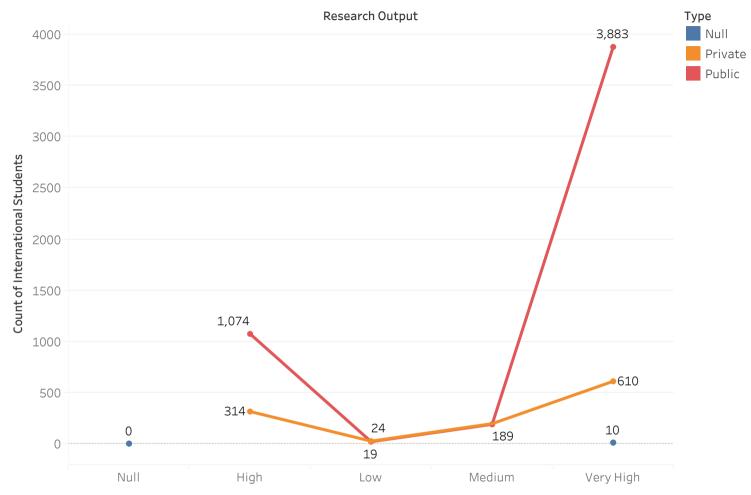

Count of Faculty Count for each Research Output broken down by Type. Color shows details about Research Output. The marks are labeled by count of Faculty Count. The data is filtered on Action (Research Output, Type), which keeps 10 members.

# Research Output vs Size of University

The trend of count of Size for Research Output. Color shows details about Size. The data is filtered on Action (Research Output, Type), which keeps 10 members.

# International Students vs Research Output

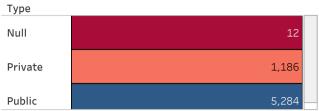

The trend of count of International Students for Research Output. Color shows details about Type. The data is filtered on Action (Research Output, Type), which keeps 10 members.
